Effective October 1, 2013

I. Tires Covered by this Warranty:

This limited warranty applies to Sentury Tire Americas brand Delinte brand tires bearing the complete description and serial number as required by the DOT. The warranty applies only to new tires purchased after October 1, 2013. New tires purchased before that date are subject to previous published warranties. This warranty is effective only to new tires for which claims are made within five years of date of production, based on the tire DOT serial number.

II. What is Warranted and For How Long:

A. Material and Workmanship Warranty:

1. Every Sentury Tire Americas Brand radial tire is warranted against defects in material and workmanship for the usable life of the original tread, ending at the appearance of the tread wear out indicators at 2/32" remaining tread depth.
2. If a tire becomes unserviceable due to such defect within the first 2/32" of wear; it will be replaced free of charge with a comparable Sentury Tire Americas Brand.
3. After the first 2/32" wear, a prorated adjustment credit to the customer will be given based on the percentage of remaining usable tread depth, down to the remaining 2/32" wear bars, at which point no credit is due.
4. OUT-OF-ROUND or OUT-OF-BALANCE claims will be accepted for adjustment only during the first 1/32" of the original tread depth, and tires will be replaced free of charge with comparable Sentury Tire Americas. A set of four (4) tires from the same vehicle will not be accepted for out-of-round or out-of-balance claims.

B. Limited Mileage Warranty:

Sentury Tire Americas Brands are warranted to achieve the following mileages before becoming worn out at 2/32" remaining tread depth. Specific mileage amounts are detailed in the table on page 2. Prorated adjustment credit will be given based on percentage of mileage not achieved. This mileage warranty is applicable only for normal highway use when all of the Owner's Obligations listed below are met.

III. What is Not Covered (Exclusions)

- A. Unserviceable tires due to road hazard damages (cuts, snags, punctures, bruises, impact breaks, etc.) improper repair technique or materials, improper inflation, overload, irregular wear, wheel imbalance, defective vehicle mechanical components (brakes, suspension wheels, etc.), improper suspension alignment, accident, fire, chemical damage, damage from chain use, racing, off-road use, runflat, improper installation, vandalism or abuse.
- B. Tires on any vehicle registered and normally used outside the 50 United States, Puerto Rico and Canada.
- C. Tires presented for warranty claim by other than the original purchaser, or tires that were transferred to another vehicle from the one upon they were originally installed, regardless of by whom. This warranty is not transferable.
- D. Any tires whose failure is caused by any previous damages or repairs.
- E. The Mileage Warranty is not applicable if tires are used in commercial service, or determined at our discretion, to have premature or irregular wear due to abusive service or defective vehicle conditions. **(Abusive service includes off-road use, excessive mountain road driving, racing or passenger car tires on pick-up, RV, or utility vehicles.)**
- F. Mileage warranty does not apply to vehicles with staggered tire fitments.
- G. Tires that have Tread Siping or otherwise modified from the original design.
- H. Mileage warranty does not apply to vehicles with staggered set up tires.

IV. Owners Obligations:

At the time of purchase, the tire(s) must be properly installed, balanced and air pressure set to the vehicle manufacturer's specifications of original equipment size, or at an air pressure adequate to carry the vehicle load if it is a different replacement size. At least monthly, the owner must check tire pressure with a gauge and inflate to recommended cold PSI level. Do not rely on car servicers to perform checks. Tires must be rotated at least every 6,000 miles or earlier if unequal wear is occurring and proof of compliance must be recorded on the warranty card. Owner must have tires rebalanced if vibration is experienced and alignment must be checked if unequal or rapid wear is occurring, or when scheduled by the vehicle maker.

All warranty claims must be presented to an **authorized Sentury Tire Americas dealer**. Tire owners must present their warranty card verifying mileage, proof of date and place of purchase, to make a Mileage Warranty claim.

V. Return of Tires

Any tires that are alleged to be non-conforming or defective shall be returned to Sentury Tire Americas after notice is provided to Sentury Tire Americas by purchaser of said non-conformity or defect. Failure to revoke acceptance of the tire or to return within a reasonable time following acceptance shall prohibit purchaser from raising any allegations of non-conformity or defect with respect to the tire.
